Skills

- HTML | CSS | JavaScript | TypeScript | React | Next.js | Tailwind CSS | Redux Toolkit | Zustand | TanStack Query
- Hono | Express | Drizzle | Prisma | PostgreSQL | MongoDB | Redis | Shopify API | Shopify Polaris | Inngest | Git | Vite | Zod

Experience

Frontend Developer

Morgan Goodwin Ltd

01/2025 - Present

- Developed and shipped production web applications for a UK-based digital agency serving multiple concurrent clients using React, Next.js, TypeScript, and Tailwind CSS.
- Contributed to Anbeond, a Shopify-approved duty and tax calculator app now live on the Shopify App Store, serving international merchants across 200+ countries.
- Implemented pixel-accurate, fully responsive UIs from Figma designs across multiple simultaneous client projects under tight delivery deadlines.
- Accelerated UI development across client workstreams by leveraging a Shadcn UI component system for consistent, accessible interfaces.

Frontend Developer

SherServe

11/2022 - 01/2025

- Built and delivered responsive, cross-browser-compatible web interfaces for multiple client projects over 2+ years in a fast-paced environment.
- Maintained and extended legacy jQuery codebases while progressively introducing modern JavaScript patterns to improve maintainability.
- Collaborated directly with clients to gather and clarify requirements, iterated on feedback, and delivered production-ready interfaces on schedule.
- Improved interface performance and accessibility across existing projects, reducing reported frontend issues.

Education

Bachelor of Science

Govt. College University

Faisalabad

08/2016 - 9/2020

- Major in Mathematics

Projects

RateTell — Shopify Shipping Rate SaaS

[RateTell](#) | [Shopify App Store](#)

- Designed, built, and shipped a complete Shopify shipping rate SaaS end-to-end as a solo project — approved and listed on the Shopify App Store.
- Architected three independent production codebases: a Next.js marketing site with full documentation, a web application dashboard, and the Shopify app itself.
- Engineered a rules engine supporting 24+ configurable shipping conditions, live carrier rate fetching, custom markup controls, and a built-in checkout simulator for pre-launch merchant testing.
- Implemented full-stack infrastructure including authentication, subscription billing, background job processing (Inngest), and transactional email (Resend).

Stack: Next.js, TypeScript, Hono, Drizzle ORM, PostgreSQL, Redis, Inngest, React Router 7, Prisma, Shopify Polaris, Resend

Anbeond — Duty & Tax Calculator (Built at Morgan Goodwin)

[Anbeond](#) | [Shopify App Store](#)

- Developed key frontend features for a Shopify-approved duty and tax calculator app, approved and live on the Shopify App Store
- Enabled DDP (Delivered Duty Paid) checkout pricing across 200+ countries, giving international customers full landed cost visibility before completing purchase.
- Built responsive, merchant-facing UI using React, Tailwind CSS, and Shadcn UI, integrated with Shopify APIs.

Stack: React, Next.js, TypeScript, Tailwind CSS, Shadcn UI, Shopify API
